

The Erudites

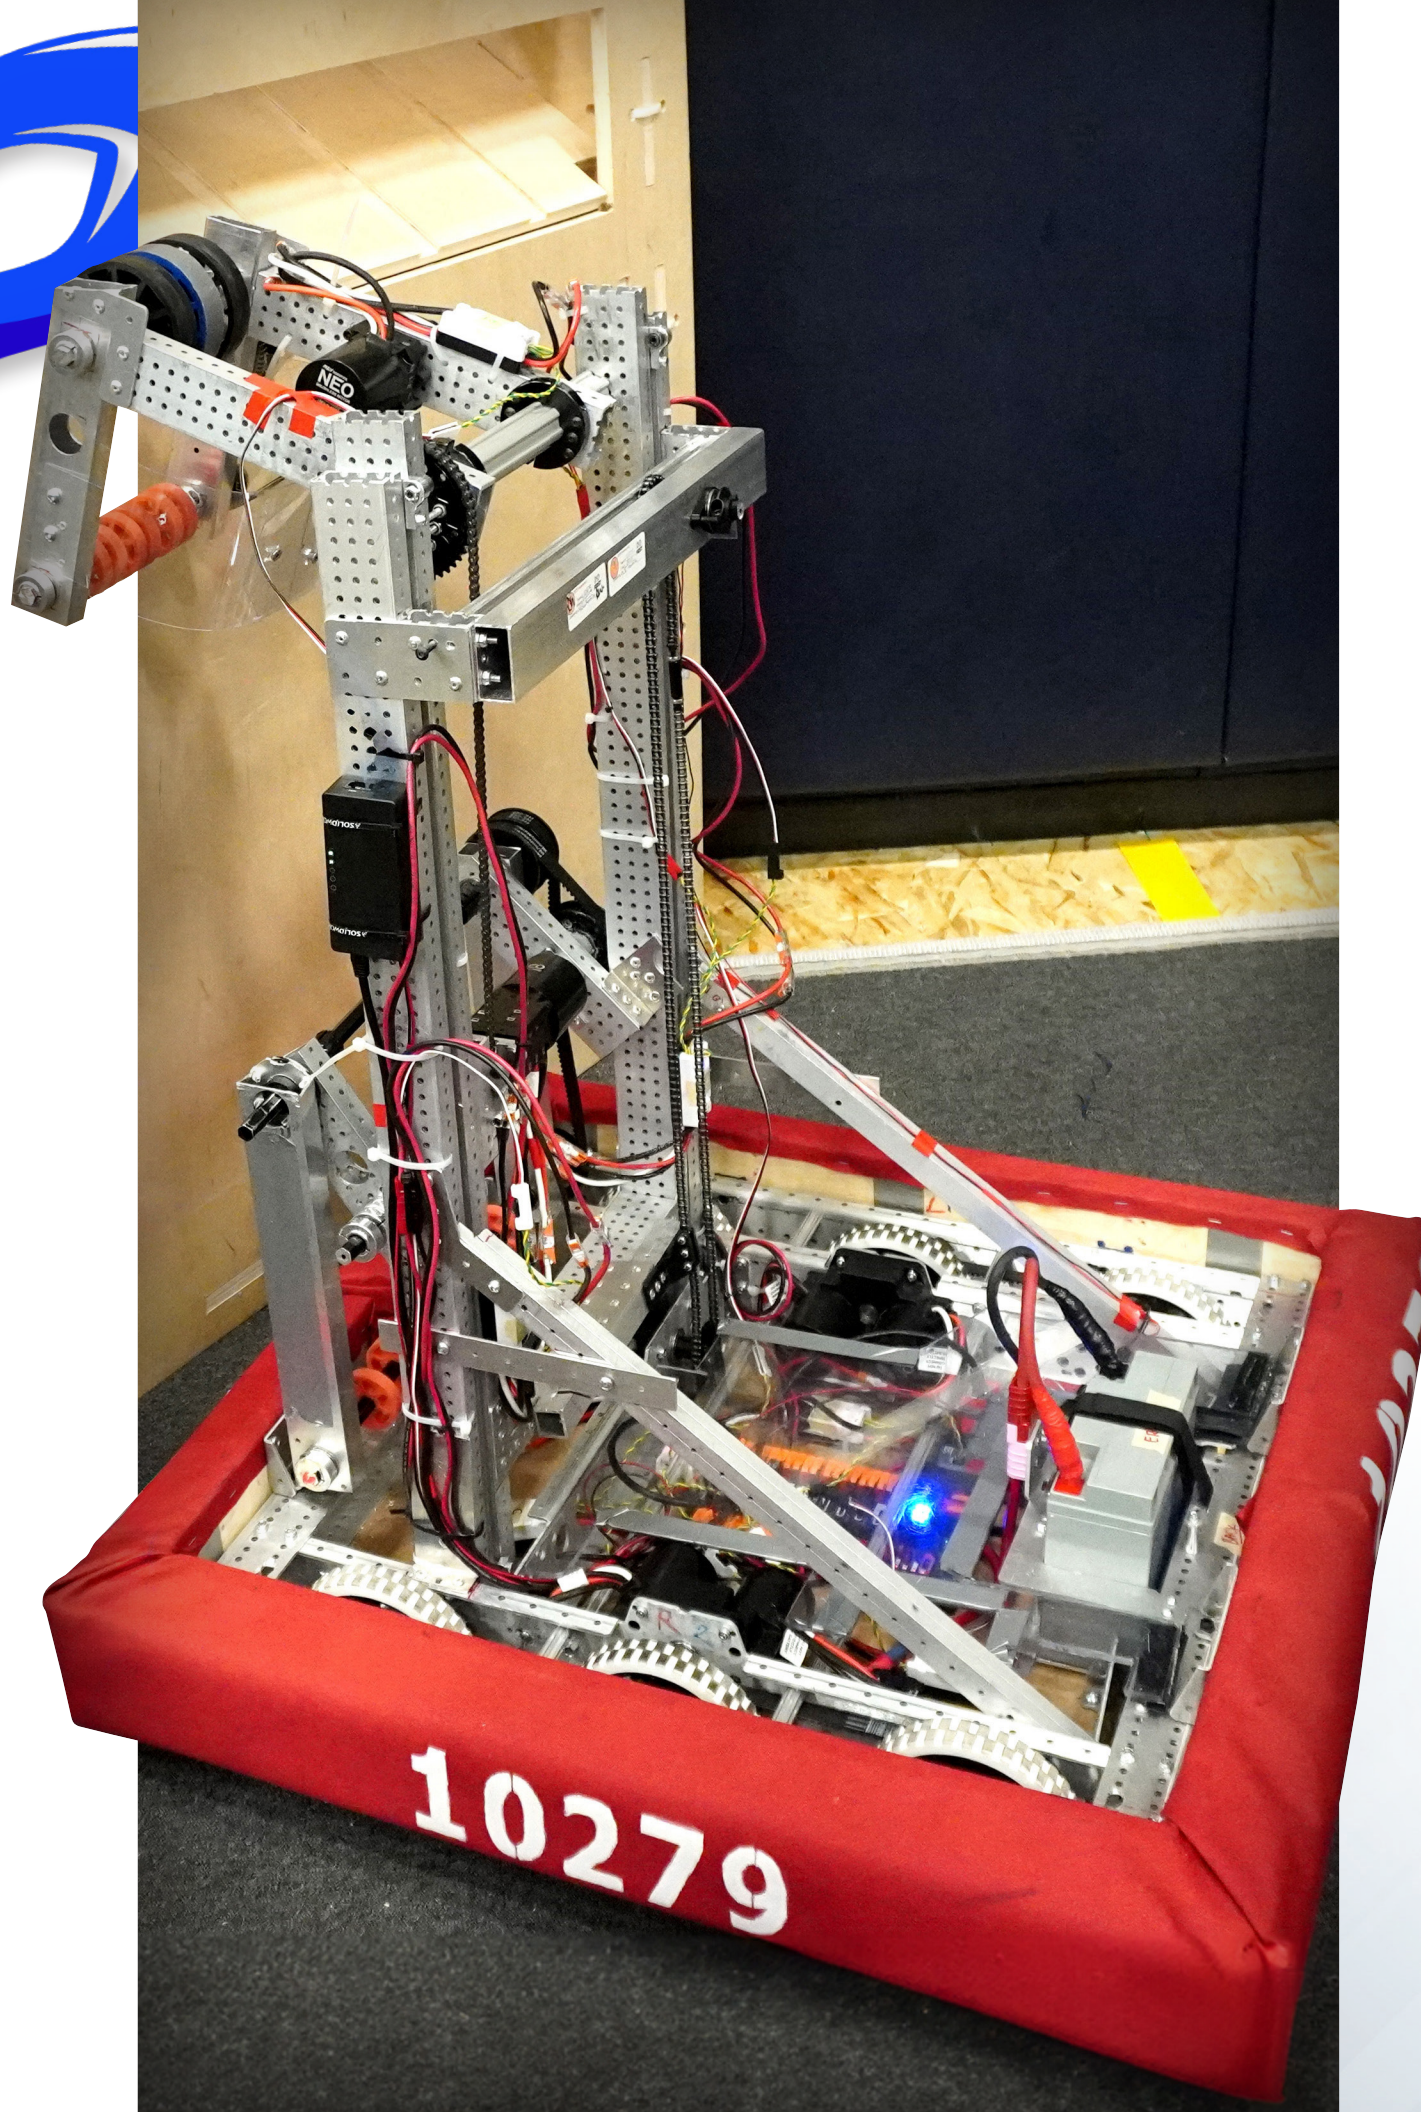

Sponsorship Package

Erudites is a women-based robotics team, and the only one in Stouffville! This team student-led making their debut at upcoming FRC season!

The Erudites

We are a passionate, community-based, student-led robotics team dedicated to inspiring the next generation of innovators and leaders!

About The Erudites

Welcome to the Erudites, a dedicated group of students advancing STEM through robotics. We compete in **First Robotics Competitions**, designing and building robots to tackle complex challenges. Our three subteams (hardware, software, and business) focus on innovation, teamwork, and a passion for learning. With your support, we can continue providing hands-on experiences and preparing the next generation of engineers and scientists.

About First Robotics Competitions

First Robotics Canada is a non-profit organization dedicated to inspiring youth to pursue STEM careers through mentor-based programs. Over 30,000 students participate in hands-on robotics challenges that foster innovation, creativity, and critical thinking. As part of the global FIRST movement, we empower the next generation of leaders and innovators.

Sponsorship Benefits

BRAND VISIBILITY & RECOGNITION	CORPORATE SOCIAL RESPONSIBILITY	TALENT PIPELINE DEVELOPMENT
Sponsors' logos and names will be featured on team banners and event programs, gaining visibility at regional, national, and international levels. Your brand will also reach audiences through social media mentions, promotional materials, and public events.	By sponsoring a robotics team, you are actively supporting education, STEM advancement, and youth development. Your contributions enhance your organization's community reputation while inspiring and equipping the next generation of engineers, scientists, and innovators.	Sponsoring the Erudites offers direct connections to talented students in STEM, opening opportunities for internships, scholarships, and future recruitment. Partnerships with educational institutions can also lead to collaborative projects and innovative research.

Our team caters to any type of sponsorship budget, as all support is appreciated! Following your financial support, the branding of your esteemed business would face different levels of exposure (i.e. logos on team wear, media mentions, etc.).

Types of Sponsorships

BROZE	SILVER	GOLD
\$50 - \$99	\$100 - \$499	\$500+
Company name on team website	Bronze benefits+ company name on social media shoutout	Silver benefits+ company recognition at competition

Buildspace

Monetary funds are not the only way to support our team! Building space is also crucial for our robotics team, especially during the build season. Companies can support us by providing a space where we can build and work on our robots.

Materials

Aside from building space and monetary funds, materials are another great way sponsors can support our team. Materials would include metal, sensors, and other parts that can be used to build our robot.

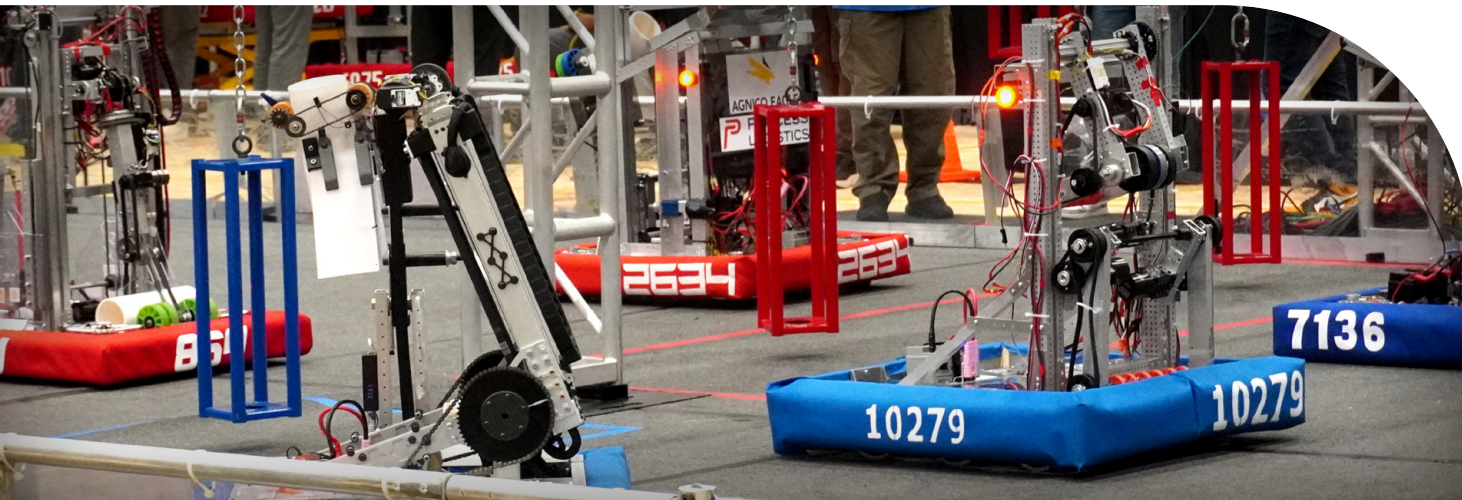

Our Missions

STEM Education

As a team committed to empowering students in STEM and supporting educational initiatives, we wish to collaborate with sponsors who can support the uprising academic impact to the local STEM community. Your support could help us create lasting impacts in the lives of young students by providing them with opportunities to engage in STEM education.

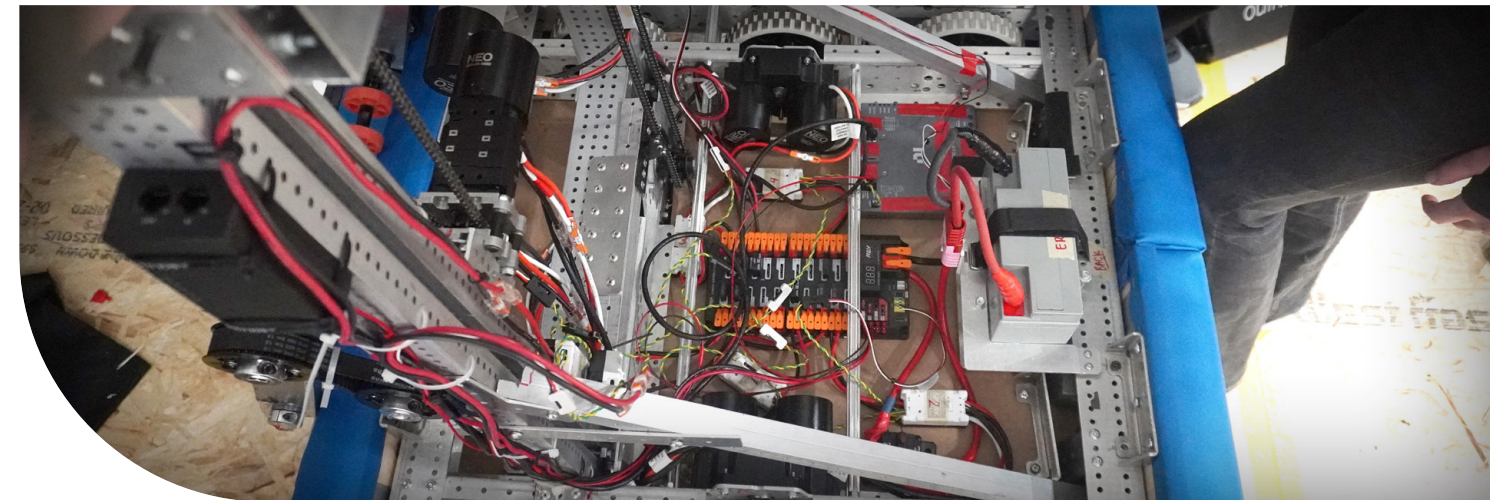

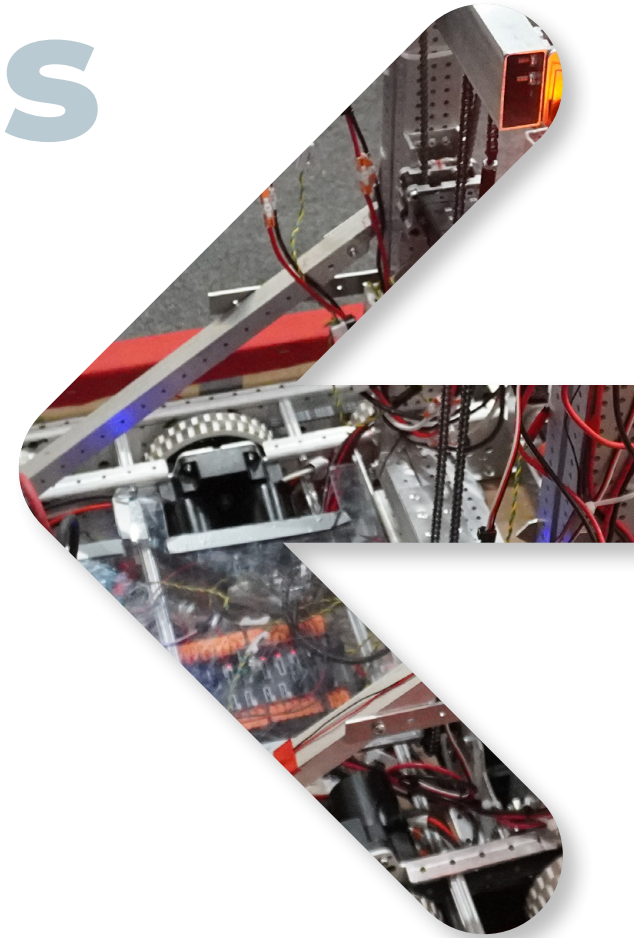

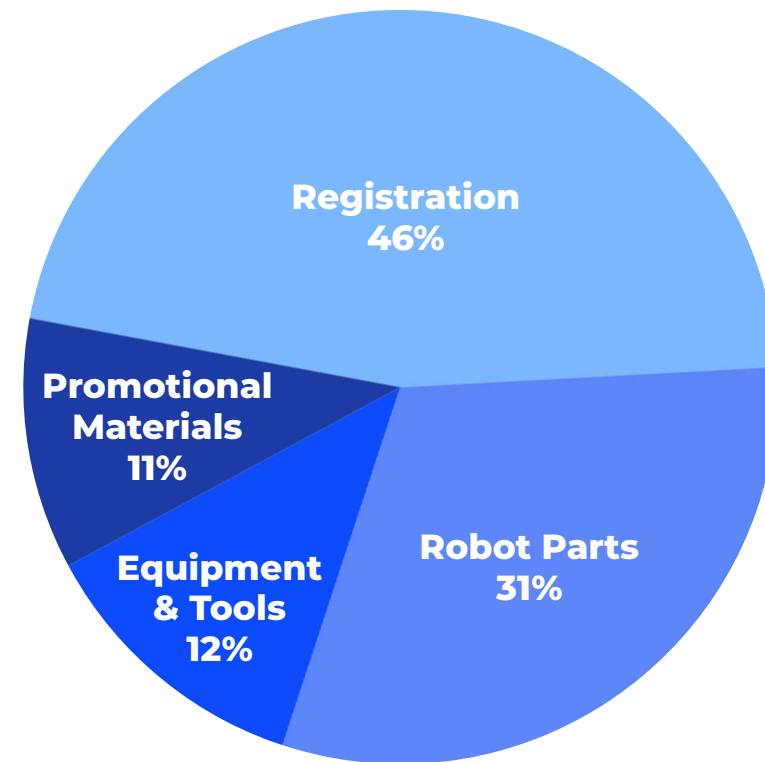

Positive Community

We actively engage with children, parents, and educators in the community, making them our primary audience. Your support could help us provide students with hands-on experiences that complement the social excellence you promote, enhancing your visibility and impact within the community.

The Erudites provides outstanding learning experiences thanks to generous contributions of time, materials, and funds. Donations directly fund robot supplies, parts, equipment, and competition fees. Our mentors volunteer their time, and team members cover their own travel and accommodation.

Our Costs

We believe in the power of collaboration and strive to create an inclusive environment where every member can thrive, learn, and contribute.
